The most advanced protective treatment technology

Combining the high-performance spill and stain resistance of Nanotex® with the non-leaching antimicrobial bioAM®, this unique blended treatment is available upon request for application to any fabric. The special finish is ideal for healthcare privacy curtains where control of microorganisms is important. Nanotex with bioAM is extremely durable and fire resistant, and its application does not change the look or feel of the fabric.

** Minimum quantities and/or flat fees may apply depending on yardage required.*

NANOtex® + bioAM® antimicrobial
