**FOLDING  
GUARD**®

**Since 1962**, Folding Guard has provided customers with innovative safety, security, and storage products and personalized expert service.

Because our vertically integrated manufacturing processes provide seamless production from raw material to finished products, we can offer the highest quality, utmost reliability, and value.

Folding Guard also has more than 700 dealers providing national and international sales, installation service, and project coordination.

See our complete line of expertly engineered products at [FoldingGuard.com](http://FoldingGuard.com) or call us directly toll-free at 1-800-622-2214 and find out how Folding Guard can help make your business more safe and secure.

**FOLDING  
GUARD®**

# From Obsolete to Innovative: How Folding Guard Revitalized an Outdated Safety System

Folding Guard was contacted by one of North America's most respected manufacturers of automotive, packaging, aerospace, and industrial products. To make their facility more efficient and regulation-compliant, its machine-perimeter guarding systems required significant upgrades.

Folding Guard toured the facility and assessed the hazards and deficiencies. Detailed recommendations were then presented, and layouts of the proposed solutions were produced. Finally, customized machine-perimeter guarding was engineered to fulfill the unique requirements of this critical site.

Because of the state-of-the-art machine-perimeter guarding designed by Folding Guard, the facility is now more efficient and compliant with safety regulations.

**FOLDING  
GUARD**®

## Machine Guarding and Employee Safety Solutions

### **Prevent workplace accidents and costly fines**

by protecting your machines and employees with welded wire safety guarding.

An industry standard for any workplace environment where machines and employees co-exist.

# Saf-T-Fence® Machine Perimeter Guarding

## Protect your people better.

Guarding the machinery you build and/or use is virtually as important as building or using it. Saf-T-Fence® protects your staff, keeps morale high, lowers your cost of doing business by maintaining productivity while reducing downtime, and can help you meet OSHA and other safety regulations. And we can have it ready to ship within 3 days! Our modular system consists of three post heights, six styles of doors,

and over 30 pre-fabricated wire-mesh panel sizes and accessories (see reverse side). All pieces assemble and install precisely and easily. You'll enjoy worker safety, less downtime, compliance with federal safety regulations, and have fewer machine-guarding problems to solve.

## Drop-N-Lock® Bracket System

### Saf-T-Fence® Drop-N-Lock® System protects your workers and machinery from harmful accidents and costly fines. Easy to install with quick access for maintenance.

When installing the Drop-N-Lock® system for machine guarding, its name says it all. Simply drop the panels into the post brackets and it locks in place with simple tightening. When maintenance workers need access to the machine, quickly remove the panel from the posts and the bracket system stays attached to prevent any misplaced hardware. Drop-N-Lock® is offered in a wide array of panel sizes, door options, and locking hardware to cover every requirement. Drop-N-Lock® can help you meet OSHA, Canadian (CSA), and ANSI/RIA R15.06-2012 safety standards.

**Panels:** 10-gauge welded-wire mesh with 11/4" x 21/2" grid openings. Wire mesh framed utilizing 14-gauge 11/2" x 11/2" steel angle.

**Brackets:** Galvanized finish. Attaches to posts for a universal configuration.

**Doors:** Hinge, Hinge Pair, Clear Access Slide, and Clear Access Slide Pair. Equipped with pull handle. Standard locking devices: Key Lock, Interlock Handle, or Snaplock.

**Installation:** All assembly hardware supplied.

**Finish:** Panels are black powder-coated; posts yellow powder-coated. Other powder-coating colors available.

**Options:** Padlock locking device. Polycarbonate panels. Custom configurations available. Interlock devices.

**Accessories:** Angle panel kit. Header bar extensions.

**Warranty:** 1 year.

# Qwik-Fence® Pallet Rack Backing System

## Protect your inventory from theft and guard your employees from unwanted work-related accidents.

The Qwik-Fence® Pallet Rack Backing System is designed to secure an existing pallet rack or bulk rack. The all-steel system surrounds the back to prevent unauthorized access and protects employees and customers from dangerous spills. The open-mesh design allows for quick visual inspection and will not deter sprinkler systems.

**Panels:** 8-gauge welded-wire mesh with 1-1/2" X 3" grid openings.

**Brackets:** Galvanized. Mounted directly to the front of the upright.

**Installation:** All assembly hardware supplied.

**Finish:** Galvanized. Powder-coat option available.

**Options:** Extra-high extension kit (for extending panels past uprights).

**Warranty:** 1 year.

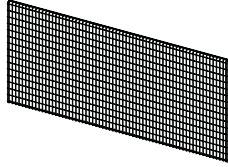

**IN STOCK** |

## Qwik-Fence® Partitioning System

**Qwik-Fence is a tough but attractive partitioning system for securing any space.**

- Low-Cost Partitioning System
- Maintenance-Free
- Unsurpassed Adjustability

## TOTAL COST OF OWNERSHIP.

Qwik-Fence® welded wire partitions have one of the lowest total cost of ownership of any wire partition system on the market – one of the the lowest material, installation, and relocation costs.

## EXTREMELY TOUGH, BUT ATTRACTIVE, SYSTEM FOR SAFE AND SECURE VISIBLE STORAGE.

Galvanized 8-gauge wire is welded at each intersection, creating more than 500 welds in a 4'x 8' panel. This produces a wire-mesh panel able to withstand 1,475 lbs. of force (substantially stronger than 10-gauge woven-wire partition panels, as confirmed by independent testing). Posts and doors are all-steel and galvanized for long-lasting performance and good looks. The open-wire mesh design provides unobstructed view and allows air circulation and light penetration, while providing security. This system requires no change to your heating, lighting, or ventilation systems.

Qwik-Fence partitions look new for years to come. Galvanized components are rust-resistant and maintenance-free – no paint touch-ups are ever needed. A bright steel finish gives it a clean, attractive look in both office and production areas.

## UNSURPASSED ADJUSTABILITY. Installs, Reconfigures Faster.

Only Qwik-Fence offers panel size adjustments without purchasing special panels – eliminating costly errors and delays due to inaccurate measurements or last-minute changes. By using fewer parts, Qwik-Fence can be installed 25% faster than conventional systems. Because there are no pins to drill out, as with hook-fastener systems, Qwik-Fence can be reconfigured faster and more easily. Only Qwik-Fence offers pre-hung doors, cutting installation time by 50%.

## FREE LAYOUT SERVICE

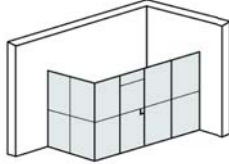

Save time and money by letting us lay out your 1-, 2-, 3-, or 4-sided partition. Our staff has created thousands of partitioning systems for satisfied customers in all types of environments. With our expertise you can be sure that your partition will perfectly fit your needs. Call and tell us your requirements or send a sketch or AutoCad blueprints, and we'll develop a solution. No obligation.

### We're here to help – just tell us:

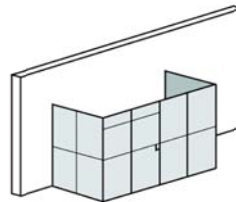

1. Overall dimensions, including height.
2. Location, size, and type of doors or service windows.
3. Location of existing walls or obstructions.

## QWIK-FENCE OPTIONS

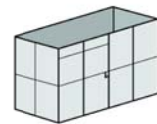

- Roof
- Service window
- Keyed-alike cylinder lock
- Double-cylinder lock
- ADA-compliant lock
- Push-button lock
- Electric strike/card reader lock
- Interlock switches
- Crash/panic bars
- Automatic closures
- DEA systems
- Colocation systems
- Powder-coating finish

Two-sided room

Three-sided room

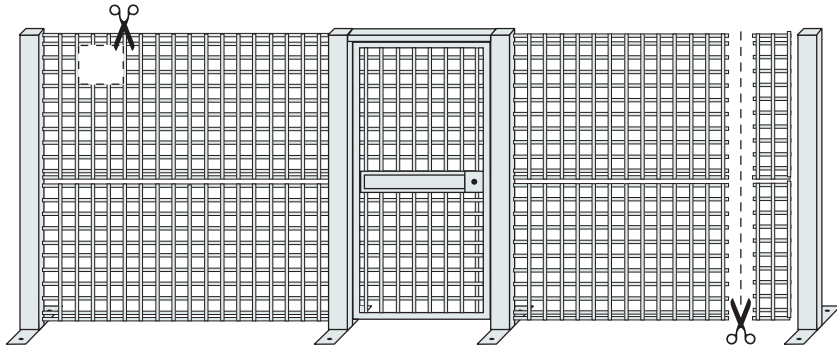

Four-sided room

## QWIK-FENCE PRE-ENGINEERED ROOMS AND CAGES

Pre-packaged, standard room kits are quick to set up and can be easily relocated.

Each kit comes complete with a 4'-wide x 8'-high sliding door with a built-in cylinder lock for maximum security. Standard 8'- or 12'-high rooms are available with or without roofs in 8'x 8', 12'x 8', 12'x 12', 16'x 12', and 16'x 16' sizes. Pre-engineered rooms are shipped knocked down and include all assembly hardware.

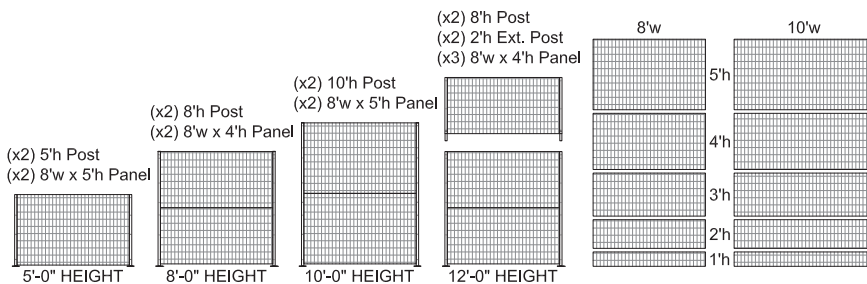

Qwik-Fence panels can be trimmed in the field to accommodate changes in dimensions, obstructions, floor or wall irregularities, or custom conveyor or lift systems. Since Qwik-Fence is all welded and galvanized, field adjustments look factory perfect; no paint touch-ups or unraveling wires.

## MODULAR COMPONENTS MAKE PLANNING, INSTALLING EASY.

Modular panels stack together to form partitions up to 20' in height. Hardware is accessible from inside the partition for additional security. Universal line and corner posts install every 8' on center, instead of 10', providing 20% more strength. Extension posts can be added to increase the height of any Qwik-Fence enclosure without reinstallation.

Now in 10' wide lengths and up to 5' heights per panel.

## FINISHES

Aside from our standard, maintenance-free, galvanized finish, Qwik-Fence can be ordered with a durable powder-coating finish in several standard colors. We can also match a specific custom color. Colors shown are approximate.

Standard powder-coated colors:

## SPECIFICATIONS

**PANELS:** 8-gauge galvanized welded-wire mesh with 1-1/2" x 3" grid openings (other sizes available) and 1-1/2" bends on top and bottom. Stack panels to heights of 20'.

**POSTS:** 2" x 2", 14-gauge galvanized steel welded to 6" x 2" x 1/4" mounting plate.

**HINGED DOORS:** 8-gauge galvanized welded-wire mesh with 1-1/2" x 3" grid openings (other sizes available). Pre-hung with standard 94" clear-height opening.

**SLIDING DOORS:** 8-gauge galvanized welded wire mesh with 1-1/2" x 3" grid openings (other sizes available). Single and double sliding doors available. Pre-hung with standard 96" clear-height opening.

**DUTCH DOORS:** 8-gauge galvanized welded-wire mesh with 1-1/2" x 3" grid openings (other sizes available). Pre-hung with standard 96" clear-height opening.

**LOCKING:** Built-in cylinder lock keyed different (KD), pre-installed, or padlock hasp.

**HARDWARE:** All hardware included.

**FINISH:** Galvanized.

**OPTIONS:** Panels and doors also available in 1-1/2" x 1-1/2" and 2" x 2" grid openings. Keyed-alike cylinders (KA), double cylinders (DC), ADA-compliant locks, push-button locks, electric strike/card reader style locks, and interlock switches. Crash/panic bars, spring hinges, and automatic closures. Service window. Roof. Powder-coating finish.

**WARRANTY:** 1-year.

## Qwik-Fence Sliding Doors

Pre-framed, full-height clearance and up to 12' wide for ease of material handling and the operation of forklifts and carts. Built-in cylinder lock included.

## Qwik-Fence Hinged Doors

Pre-hung single and pair doors feature full-height clearance and are up to 4' wide. Pre-hung dutch doors feature full-height clearance and are 3' wide. Built-in cylinder lock included.

## PALLETIZED SHIPMENTS

For easy handling and reduced shipping damage.

# Wov-N-Wire™ Partitioning System

## Modular partitions that are easy to move and built to last.

Wov-N-Wire™ partitions are the traditional enclosure system specified by architects and contractors. The tough steel wire is woven to create a durable, high-quality system.

**Construction Details** – 10-gauge steel wire, woven into an extremely strong, 1-1/2" diamond mesh. Frames, posts, and components are all-steel.

**Modular** – Component system makes it easy to design a partition of any size, up to 25' in height. Components bolt together quickly. Easily relocated.

**Maintenance-Free** – Standard gray powder-coating finish is tough and maintenance-free. Other colors available.

### PRE-DESIGNED ROOM KITS:

Wov-N-Wire 2-, 3-, and 4-sided room kits are economical and easily installed. Includes a sliding door with cylinder lock and all hardware. Sizes range from 10' x 10' to 30' x 20'. Options include roof or service window.

### OPTIONS

- Roof
- Service window
- Keyed-alike cylinder lock
- Double-cylinder lock
- ADA-compliant lock
- Push-button lock
- Electric strike/card reader lock
- Interlock switches
- Crash/panic bars
- Automatic closures
- DEA systems
- Colocation systems

# Stor-More® Loss Prevention Security Cabinet

**Secure small- to medium-sized high-value products on the sales floor, back room, receiving area, or warehouse.**

## Advantages

**All-Steel Construction:** Made from sturdy, 8-gauge galvanized welded-wire mesh panels on a 2" x 2" frame made of 14-gauge galvanized steel. Hinged doors include a built-in cylinder lock.

**Secure, But Open:** Open-mesh design allows for a quick visual inspection of valuable items.

**Easy Assembly:** Components are pre-punched for easy assembly.

**Options:** Optional shelf available in 4-gauge galvanized welded wire or 20-gauge galvanized steel panel. Powder-coating finish available in multiple colors.

**Standard Sizes:** Cabinets come in widths of 48" (single door) or 96" (double door) and a variety of depths and heights. The 96" model will fit in a standard 96"-wide pallet rack.

**IN STOCK** | 

# Stor-More® Loss Prevention Security Cabinet

**Pioneered by Folding Guard – still the standard in loss prevention.**

**Panels:** 8-gauge galvanized welded wire with 1-1/2" x 3" grid openings.

**Frame:** 2" x 2" 14-gauge galvanized steel frame.

**Door:** Industrial-grade hinged doors feature built-in cylinder lock.

**Finish:** Galvanized.

**Options:** Wire shelf made of 4-gauge galvanized welded wire with 1-1/2" x 3" grid openings. Sheet-metal shelf made of 18-gauge galvanized steel. **Note:** 8000 Series require two shelves for each full-width level and one shelf for each half-width level.

**Installation:** Ships knocked down or fully assembled.

**Warranty:** 1 year.

## TA-50 Military Lockers

### Framed Welded Wire

An open-mesh design enables both quick visual inspection and ventilation. The hinged door features a high-security, 3-point locking system. Available in two standard sizes: 78" H x 42" W x 24" D and 78" H x 36" W x 24" D.

**Application:** Used by the U.S. Military for securing personnel's equipment and gear.

 **Advantages:** Economical wire mesh design. Single or double door option.

 **Heavy-duty construction:** TA-50 military lockers are constructed of heavy-gauge steel to withstand years of heavy use. Door, sides, and back are made of welded-wire mesh. Top and bottom shelves are flanged for increased stability. Features a tough, black, baked-on powder-coating finish.

 **Secure:** TA-50 military lockers feature full-height doors with a 3-point locking system. The latching rod engages the top and bottom edges of the door frame, while a center latch engages the door jamb, enabling doors to latch on three sides. The door handle has a built-in padlock hasp.

 **Easy assembly:** Components are welded and pre-punched for ease of assembly. All hardware is supplied. Bolts are not accessible from outside the locker.

### Expanded Metal

Bi-parting, center-meeting doors feature a high-security, 3-point locking system. Standard size is 78" H x 42" W x 24" D.

**Application:** Used by the U.S. Military for securing personnel's equipment and gear.

 **Advantages:** Double door design allows for more aisle space when doors are accessed. Meets standard military specifications.

 **Heavy-duty construction:** Heavy-gauge steel; expanded metal doors and sides; flanged shelves.

 **Secure:** Full-height doors with 3-point locking system; door latches on three sides and includes built-in padlock hasps.

 **Easy assembly:** Components are welded and pre-punched for ease of assembly. All hardware is supplied. Bolts are not accessible from outside of locker.

## Qwik-Fence® Pallet Rack Backing System

**Protect your inventory from theft and guard your employees from unwanted work-related accidents.**

The Qwik-Fence® Pallet Rack Backing System is designed to secure an existing pallet rack or bulk rack. The all-steel system surrounds the back to prevent unauthorized access and protects employees and customers from dangerous spills. The open-mesh design allows for quick visual inspection and will not deter sprinkler systems.

**Panels:** 8-gauge welded-wire mesh with 1-1/2" X 3" grid openings.

**Brackets:** Galvanized. Mounted directly to the front of the upright.

**Installation:** All assembly hardware supplied.

**Finish:** Galvanized. Powder-coated option available.

**Options:** Extra-high extension kit (for extending panels past uprights).

**Warranty:** 1 year.

# Saf-T-Store® Cylinder Cabinets

**Compact storage for compressed gas cylinder tanks that protects them from damage, theft, and unauthorized access.**

## Advantages

**Ready-to-Ship Standard Sizes:** Variety of models provide horizontal, vertical, or a combination of gas cylinder storage configurations.

**Heavy Duty:** Panels are constructed of extra-thick 8-gauge galvanized welded wire with 1-1/2" square-angle frames. The 12-gauge, galvanized steel sloping roof sheds water and ice. A sturdy padlock hasp is standard on all Saf-T-Stor® gas cylinder storage cabinets.

**Resists Corrosion and Rust:** All material is galvanized steel to stand up to harsh indoor and outdoor environments.

**Sign Included:** OSHA-compliant "Danger Flammable Material" sign included.

**Easy Assembly:** Components (panels, frame, roof, and pre-hung door) are slotted for easy assembly with common hand tools.

**Options:** Powder-coating finish available in three colors.

**Shipping:** Cabinets ship knocked down at a low cost via UPS.

**Warranty:** 1 year.

# Saf-T-Store® Cylinder Cabinets

## Ultra-strength, all-galvanized construction with a space-saving footprint.

**Panels:** 4-gauge, galvanized welded-wire mesh with 1-1/2" x 3" nominal openings.

**Frame:** 14-gauge, galvanized steel, 1-1/2" square angle.

**Door:** 4-gauge, galvanized welded-wire mesh with 1-1/2" x 3" nominal openings. Steel butt hinges. Padlock hasp included.

**Roof:** 18-gauge, galvanized steel sloping roof.

**Shelves:** 1" square tube, 20-gauge; designed to accept standard cylinders.

**OSHA- and NFP-Approved:** Cabinets exceed OSHA 1910.110 requirements and NFP standard 58-79. OSHA-approved "Danger Flammable Material" sign included.

**Installation:** All hardware furnished. Components are slotted for easy assembly with common hand tools.

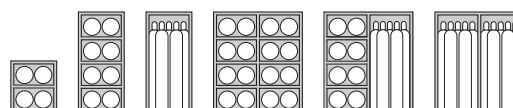

**Finish:** Galvanized. Powder-coat options available.

**Shipping:** Ships knocked-down.

### Available Colors:

 Galvanized (Standard)

 Saf-T-Yellow
